LASH LIFTING PRE & POST INSTRUCTIONS:

- Do not wear waterproof mascara for two days prior to your treatment.
- If possible, do not wear makeup to your appointment.
- Remove contact lenses prior to your appointment. These can be reinserted 12 hours after your treatment if no irritation has occurred.
- Never open your eyes during a lash lifting procedure. This may cause temporary or permanent irritation or damage to your eyes.
- Avoid getting the lashes wet for 24 hours.
- Lashes may not achieve the amount of lift you were expecting, in which case, inform your therapist so the procedure can be modified next time.
- Avoid wearing eye make up for 24 hours.
- Do not rub your lashes.
- Do not use an eyelash curler.
- Avoid swimming, sauna, steamy showers and sweating for 24 hours.
- Everyone's eyelash hair is different; some lashes may hold the curl longer, or less, than others.
- Do not sleep on your lashes.
