Wax, Lash, Tan, Gorgeous

### WAXING PRE & POST INSTRUCTIONS

- Arrive to your appointment with clean skin, free of deodorant, make up, sunscreen, sweat and moisturizers, as this will decrease the chance of the wax adhering to the hair.
- Understand that areas of skin which are affected by sunburn, eczema, psoriasis, dermatitis, rashes, cuts, abrasions or any other skin condition, are unable to be waxed.
- Please shower before having a Brazilian or bikini wax. Refreshing wipes will be provided, however showering is also requested.
- Do not exfoliate 24 hours before or after your wax. But do exfoliate 3 days after your wax, and 2-3 times per week thereafter.
- Wear loose clothing to your appointment.
- Do not use fake tan for 24 hours after your appointment.
- Do not use moisturizers, creams, deodorant or make up for 24 hours after your wax (mineral make up is ok)
- Avoid hot showers, the sun, tight clothing, swimming, and sauna for 24 hours after your wax.
- Avoid touching freshly waxed skin – bacteria from your hands can cause infection.
