BROW LAMINATION PRE & POST INSTRUCTIONS:

- If you are using any products containing Retinol, please let me know ASAP as this will need to be stopped for three weeks prior to lamination.
- Avoid hair removal for 48 hours prior to your appointment.
- Gently exfoliate your brows 2-3 days prior to your appointment.
- If possible, do not wear eyebrow makeup to your appointment.
- Do not use fake tan for at least 24 hours after your lamination.
- Avoid getting your brows wet for 24 hours after your lamination.
- Do not rub your brows after your lamination.
- Avoid swimming, sauna, steamy showers and sweating for 24 hours after your lamination.
- Do not sleep on your brows.
- Condition your brows daily with hair conditioner after your lamination.
- Use Elleeplex (recommended) or Castor Oil every day after your lamination. You can buy Elleeplex from me, or a small bottle of Castor Oil will be given to you. I will also give you a spoolie brush.
- Style your brows daily, preferably when wet, with a spoolie. Brows can be brushed throughout the day to maintain shape.
- Do not use Henna products on your brows for at least 4 days after brow lamination.
- A professional brow nourishing treatment is recommended 3-4 weeks after your lamination. This is done in the salon.
- The aftercare for a brow lamination is extremely important to maintain healthy brows. If the aftercare is not followed, you could experience curling, drying, breakage or even loss of the brow hair.
